# Samantha Joslin

**Solutions & Implementation Engineer** · Maui, Hawaii (Remote, US) · 808-757-3679 · smjoslin95@gmail.com · linkedin.com/in/samantha-joslin95 · github.com/Smjoslin95 · smjoslin95.github.io

## SUMMARY

Customer-first technical problem solver with 9+ years in client-facing operations and hands-on experience building full-stack and mobile software. I translate real-world workflows into working systems: a space-ops coordination platform, a mobile health app with clinical-threshold logic, and data projects with clinical leadership. Skilled at discovery, explaining technical concepts to non-technical people, and training teams on new tools.

## SKILLS

- **Solutions & customer:** discovery and requirements gathering, solution documentation, staff training, cross-team communication
- **Languages & frameworks:** TypeScript, JavaScript, Python, React, React Native (Expo), Node.js/Express, C++
- **Cloud & data:** AWS (Cloud Practitioner, AI Practitioner; Solutions Architect in progress), PostgreSQL, SQLite, Firebase, data analysis
- **Tools:** Git/GitHub, Microsoft 365 (Excel), Figma, hotel property management systems, booking and POS systems

## PROJECTS

**Founder & Software Engineer, GroundScape / ScapeOS** 2026 – present

- Built a space infrastructure operations coordination platform (scheduling, maintenance tracking, multi-site crew coordination) as a full-stack monorepo: React/Vite, Node.js/Express, PostgreSQL, Firebase Auth
- Ran customer discovery with space-sector organizations to shape requirements around real operator workflows
- Built GroundScape Quantum, applying Grover's search to ground-station scheduling, with a live interactive demo

**Migraine Log · React Native, Expo, TypeScript, SQLite** 2026

- Designed and built a local-first mobile app for logging migraines mid-attack, from requirements through store-build setup
- Turned clinical medication-overuse guidance into alert logic counting treatment days per medication class over a rolling 30 days

## EXPERIENCE

**Patient Care Assistant (Overnight), 'Ai Pono Hawaii** Aug 2026 – present

- Leading data cleaning and analysis for a company-wide clinical outcomes report (~2,200 data points across three programs) with clinical leadership
- Built an overnight shift reference guide (charting templates, compliance calculations, safety procedures), adopted team-wide
- Overnight patient care, safety monitoring, and clinical documentation in a JCAHO-accredited residential facility

**Spa Coordinator, Ho'omana Spa** Jun 2023 – Sep 2026

- Managed the client database, booking system, and electronic records; client communication, referral tracking, payments, and inventory

**Front Desk Agent, Sands of Kahana** Dec 2024 – Mar 2026

- Operated the property management system for reservations and payments; performed night audit and management reporting

**General Store Manager, Maui Wellness Group** Jun 2021 – Jul 2024

- Led the store team; owned inventory audits, financial reconciliation, and sales reporting to hit store targets

**Assistant Store Manager, Starbucks** Aug 2016 – Feb 2021

- Trained and coached shift teams; ran opening/closing operations and financial reconciliation

## CERTIFICATIONS & EDUCATION

AWS Certified Cloud Practitioner · AWS Certified AI Practitioner · AWS Solutions Architect – Associate (in progress)
B.S., Software Engineering, Southern New Hampshire University (expected 2026)
