SAMANTHA JOSLIN

Kahului, Hawaii 96732 | 808-757-3679 | smjoslin95@gmail.com | github.com/Smjoslin95 | smjoslin95.github.io

PROFESSIONAL SUMMARY

Software engineering student (Southern New Hampshire University, expected 2026) building production systems independently while working in operations and clinical support roles. Founder of GroundScape, a TRL 3 space infrastructure coordination platform. Strong background in operations coordination, data management, and clear communication in fast-paced, detail-critical environments. Quickly closes knowledge gaps and delivers value across technical and non-technical teams alike.

TECHNICAL SKILLS

Languages & Frameworks: Python, C++, React, TypeScript, Node.js/Express

Cloud & Data: AWS (Cloud Practitioner & AI Practitioner certified; Solutions Architect in progress), PostgreSQL, Firebase

Tools: Git/GitHub, Microsoft Excel, Figma

Other: Critical thinking, data/records management, multitasking, time management, attention to detail

TECHNICAL PROJECTS

Founder & Software Engineer — GroundScape / ScapeOS **2026 – Present**

- Built a TRL 3 space infrastructure operations coordination platform (scheduling, maintenance tracking, multi-site crew coordination) as a full-stack monorepo (React/Vite, Node.js/Express, PostgreSQL, Firebase Auth)
- Selected participant, BusinessSPACE Cohort 4 (Maui Economic Development Board)
- Built a quantum computing integration using IBM Qiskit/Aer with real QPU access via IBM's open-instance program
- Designed and deployed brand assets, website, and business collateral; 100% self-funded

Clinical Outcomes Data Project — 'Ai Pono Hawaii **2026 – Present**

- Leading data cleaning, coding standardization, and statistical analysis for a company-wide clinical outcomes report spanning ~2,200 data points across three treatment programs (Residential, PHP, Virtual IOP)
- Working with clinical leadership to reconcile historical and current datasets using a validated quality-of-life outcome measure (EDQLS) ahead of a platform migration

EXPERIENCE

Patient Care Assistant (PCA), Overnight — 'Ai Pono Hawaii **August 2026 – Present**

- Provide overnight patient care and safety monitoring (8:00 PM–8:00 AM) in a JCAHO-accredited residential eating disorder treatment facility
- Conduct hourly rounding, safety checks, and clinical documentation/charting per treatment protocol
- Support treatment team communication and continuity of care across shift transitions
- Built a comprehensive overnight shift reference guide covering charting templates, meal compliance calculation, and safety procedures, since adopted for shift consistency

Front Desk Agent — Sands Of Kahana **December 2024 – March 2026**

- Managed guest arrivals, departures, and reservations using the hotel property management system
- Handled cash and credit card payments, deposits, and cancellation policy communication
- Resolved guest concerns professionally to maintain service standards and guest loyalty
- Performed night audit duties, including balancing daily transactions and preparing reports for management

Spa Coordinator — Ho'omana Spa **June 2023 – September 2026**

- Managed client communications and appointment bookings via phone, email, and social media
- Maintained client records, referral tracking, and electronic documentation
- Processed payments and supported spa/retail inventory management

General Store Manager — Maui Wellness Group **June 2021 – July 2024**

- Managed inventory audits, financial reconciliations, and sales reporting
- Identified and executed on opportunities to increase sales and meet store targets
- Led team performance through cash handling procedures and end-of-shift reconciliation

Assistant Store Manager — Starbucks **August 2016 – February 2021**

- Organized opening/closing duties and coached team members on standard and customized recipes
- Trained staff in customer service, merchandising, and security monitoring

EDUCATION

Bachelor of Science, Software Engineering — Southern New Hampshire University (expected 2026)
